New value to your work

NEW VALUE TO YOUR WORK

Ekommerce Srl was established in 2001 with the aim to promote **Ekomille**, the innovative and **eco-friendly** rodent control system. The company today is committed to provide innovative solutions in the market of environmental pest management services.

The solid structure, the efficient marketing organization, the field-specific technical expertise ensure a successful involvement in the pest control market and a continuous improvement. The company's goal is to gain the market leadership in the field of **eco-friendly products** with high customer satisfaction, public organizations, private and especially **PCO professionals**.

Our mission is to meet the satisfaction of the customers and to be sustainable for the **environment** and **human health** by means of suitable instruments and services for pest management.

Our success is dependent upon the up-to-date expertise of our staff, and to an organization designed to meet our clients' needs.

A team of professionals and technicians is at your service to sort out pest control issues in an ecological, hygienic and safe way.

EKOMMERCE PRIDE IN THE WORLD

Ekommerce, with its "Made in Italy" products, has established itself in the **professional pest management market** as the first **Glocal Pest Company**: a **global** company able to export its "business model canvas" out of its Country and affirming the own presence at **international** level, in all 5 continents, where it spreads the important experiences acquired from the **local** market.

Ekommerce is present today in many countries:
Europe > Spain / Romania / France / The Netherlands / Belgium / Bulgaria / Poland / Hungary / Portugal
Oceania > Australia
Asia > China / India / Indonesia / South Korea / Malaysia / Philippines / Singapore
USA and South America > USA / Argentina / Chile / Colombia / Mexico / Paraguay / Peru / Trinidad and Tobago
Africa > Madagascar / Marocco / South Africa

EKO RODENT SYSTEM

Eko System

eko

ECO-FRIENDLY
RODENT CONTROL
METHOD

EKOMILLE

Ekomille is an electromechanical equipment for the capture, continuous and effective, of all species of rodent pests (mice and rats). Thanks to its characteristics it ensures hygiene, safety and ecology. The result of years of study and research, with almost twenty years' experience certified, the equipment is operated in a natural way without the use of poisons or harmful, but taking advantage of the ethology of pests. The rodent, attracted by natural priming, is captured instantly just trying to eat. Sensitive electromechanical devices allow immediate catch, multiple and continuous.
There are three functional principles:

PRIMING FOOD: Unparalleled and guaranteed by the use of natural substances available in 16 rooms bait. Thanks to these properties, Ekomille allows to make strategy choices of food priming unique in its kind.

STRUCTURAL PRIMING: The device is appreciated as a safe environment and then as a place in which the rodents atmosphere its lair and its shelter.

HUMAN FACTOR: The PCO, through the use of the Eko System line, is able to express its full potential, in terms of image and professional competence, thanks to the possibility of being able to use a technology that makes objective and transparent the result of its operating activities.

The advantages of Ekomille are numerous:

√ **Ecological** because it does not use poisons
√ **Safe** because it is safe for children, non-target animals and in the workplace
√ **Hygienic** because it does not disperse infected carcasses in the environment and complies with HACCP standards
√ **Ethological** because it exploits the behavior of rodents for their capture
√ **Ethical** because compared to the other rodent control and glue methods, it represents the rodent suppression system that causes less suffering
√ **Multifunctional** because it is suitable for any environment, interior, exterior, floor or suspended
√ **Easy** because after installation, limited periodic checks are required
√ **Versatile** because it can also be used for prevention and monitoring activities
√ **Efficient** because it carries out mass trapping, containing up to 80 rodents in the specific tank
√ **Effective** because it captures all 3 main species of weed rodents without distinction

Dimensions (mm): w 330 x d 440 x h 630

EKOLOGIC

Ekologic is an ecological device for monitoring all species of rodent pests. Built with a solid structure in ABS plastic, it is used in monitoring activities, especially in the initial phase, in combination with the Ekomille to cover the entire area involved in rodent control. Do not make catches. Can be used in all the internal and external contexts of companies in the food industry chain, industries, public places and other environments open to the public. The natural bait kit (Ekofood 100 - code 2014) is supplied.

Dimensions (mm): w 330x d 440 x h 370

Code: APGA05B
Packaging: 1 pc

EKONTROL

Ekontrol is an integrated remote control system for monitoring pest rodents, which thanks to a powerful web platform allows real-time monitoring of rodent control stations from any part of the world, at any time, by the PCO professional and the Customer user.

Ekontrol consists of two parts:

HARDWARE: In line with quality standards, the hardware system is made of ABS plastic and electronic components. Equipped with a PIR sensor that detects passage and/or capture of rodent pests and a GSM/GPRS Quad-Band 850/900/1800/1900 MHz system that allows data transmission to the web server. It is able to provide information on battery status, on/off, daily life status, captures/passages. Equipped with 2600 mAh rechargeable lithium battery with an average life of 3 months. Power on/off by magnet.

SOFTWARE: The software is a web platform accessible from PC, smartphone, tablet, without download and accessible from anywhere in the world via credentials. All detection data can be exported in Excel and customizable graphic files.

It can be installed on rodent control devices and in "Free" mode near sensitive access points, such as cable ducts, electrical cabins, floating floors, false ceilings.

Ekontrol is supplied complete with: detection device, microsim card, 1 lithium battery, 1 magnet, 1 double-sided adhesive

Dimension (mm): w 100 x d 55 x h 30

REMOTE MONITORING AND CONTROL

Code: 8551   – Ekontrol
               8551B   – Lithium battery
               8551CQ – Charger 4 batteries
Packaging: 1 pc

EKOBOX A

Ekobox A is the inspectable cover for the Ekomille device and Ekologic monitoring device. It is characterized by a completely closed structure: closed floor with system for fixing to the ground, perforated roof, 3 fixed walls and front door with flap opening to simplify the control operations. The door is equipped with holes for closing with padlocks (supplied) and window for rapid control of the Ekomille counter. On the walls there are 3 entry holes for mice and rats (one per wall). Made of painted metal. Equipped with a practical front flap door. Ideal for industrial and civil environments to protect capture and monitoring equipment, against non-target animals, theft, vandalism and curious non-experts. Comes disassembled with instructions. Available in two colors: cream and green. Padlock with code supplied.

Dimension (mm): w 410 x d 550 x h 735

Code: 2003E – CREAM color
               2004E – GREEN color
Packaging: 1 pc

EKOPARK

Ekopark is an inspectable cover for Ekomille and Ekologic designed for urban outdoor environments. Made with an aluminum structure and treated wood, it is perfect for being discreetly integrated into urban and civil furnishings, such as parks and gardens. It guarantees protection against no-target animals, theft, tampering and vandalism. Padlock with code supplied.

It can be supplied complete with Ekomille (code 2001PARK - Ekologic Island).

Dimension (mm): w 490 x d 600 x h 700

Code: 4177   - Ekopark
               2001PARK - Ekologic Island
Packaging: 1 pc

EKOBLOCK & EKOBLOCK FIXING

Ekoblock and the fixing pole, together they create an anchoring system to the ground in aluminum and zinc-coated steel. Practical to install with a capacity up to 500 kg. It is used as a security and anti-theft system for Ekopark and Ekobox.

Dimension (mm): Ø cable 4 - w 500 (code 7007) | w 900 (code 7008)

Code: 7007+7008
Packaging: 1 pc

EKOFIX 100

Ekofix 100, is a concentrated flavored odor control liquid. It is a specifically designed, tested sanitizing and desodorising liquid mixture designed to be used effectively in the Ekomille. The product, supplied concentrated, is in liquid solution, with an identifying green color and a characteristic almond aroma. For use dilute the contents of the 5 liters tank inside the lower section of Ekomille and add about 13 liters of water, until reaching the level of the solution between the linear indicators on the internal side walls of the section.

Packaging: double corrugated cardboard box containing 3 of 5 liters tanks each (total 15 liters of concentrated liquid).

Code: 2012
Packaging: 5 liters tank (box with 3 tanks)

EKOWAS

Ekowas is a reusable container in 100% polypropylene plastic for the collection, transport and temporary storage of carcasses of rodents caught with Ekomille. The practical cover with closing system with lateral hooks allows the container to be closed securely so as to facilitate manual transport without risk. Capacity of 25 liters.

Dimension (mm): w 400 x d 300 x h 260

Codice: 7003
Confezionamento: 1 pc

EKOWORK

Ekowork, reusable polyethylene plastic container for recovery, storage, reuse and transport to the place of disposal of the spent Ekofix liquid. Versatile, safe, facilitates the emptying of the Ekofix. Equipped with a "trolley" style carrying handle and a wheel to facilitate moving at full load. Containing capacity of 36 liters.

Dimension (mm): w 570 x d 370 x h 280

Code: 7004
Packaging: 1 pc

EKONET & COLLECTION BAGS

Ekonet, professional shovel and collection bags of carcasses of rodents caught in the lower section of Ekomille. It allows a quick collection of carcasses in complete safety. Equipped with stainless steel structure with nylon fiber mesh and iron extensions.

Dimension (mm): w 260 x d 200 | Ø 20 – w 270

Code: APGA13A – shovel
               3281 – collection bags
Packaging: 1 pc (code APGA13A)
               5 pcs (code 3281)

EKOFIT

Ekofit is a shockproof plastic box with a lid containing all spare parts and accessories for repairing the Eko System. Practical and easily transportable, it contains in a small space everything necessary for ordinary and extraordinary maintenance * of the Eko System equipment.

Dimension (mm): w 550 x d 250 x h 280

*Included: Manger partition 5 pcs / Lower ladder complete 1 pc / Trapdoor gasket 3 pcs / Big feed holder 1 pc / Battery 3 pcs / Small feed holder 1 pc / Charge lever 3 pcs / Manger 1 pc / Seeger charge lever 5 pcs / Complete mobile wall 1 pc / Sensor bar 3 pcs / Left cover 1 pc / Fixing scrivet 10 pcs / Right cover 1 pc / Screws for axis impeller 10 pcs / Sunflower seeds 500g 3 pcs / Bushings impeller axis 10 pcs / Animal fat bag 30g 5 pcs / Screw in plastic hatches 10 pcs / Pine nuts bag 15g 5pcs / Nut for hatches axes screws 10 pcs / Disposable gloves 6 pcs / Superior ladder complete 1 pc.

Code: 3282
Packaging: 1 pc

EKOUP & EKOSIDE

Ekoup & Ekoside, are an equipment support system with tubular arm in painted steel. It can be used for height positioning of Ekomille or Ekologic for the control of the black Rat (*Rattus rattus*).

Dimension (mm): w 350 x d 360 x h 850 (Ekoup)
w 150 x d 340 x h 100 (Ekoside)

Code: APGA07 – Ekoup
APGA09 – Ekoside
Packaging: 1 pc

EKOSHIP

Ekoship is a practical and interchangeable handle for transporting and moving Ekomille, in ABS plastic.

Dimension (mm): w 500 x d 280

Code: APGA01
Packaging: 1 pc

SECURITY

Security is a safety label for Ekomille, thermochromic with a unique and unrepeatable code that becomes irreversibly red when disconnected, leaving the word VOID (violated)

Dimension (mm): 60 x 30

Code: 7184
Packaging: 1 pc

FLY CONTROL SYSTEM

KLIGHT, GLUEBOARD UV TRAPS

Klight is the brand of UV traps with glueboard for professional use, the most suitable tool for capturing and monitoring internal areas infested by flying insects, such as flies, midges, wasps, food moths, etc.

Klight includes many models depending on the environment in which they are used:

KILLED is the new range of UV LED traps for professional use in Ho.Re.Ca. or front office environments

INDUSTRIAL Line incorporates UV traps with important design and high-performance technical features, suitable for use in industrial contexts such as food factories, processing and preparation areas and wet environments

COMMERCIAL Line, on the other hand, contains models of UV traps whose technical characteristics allow their use in environments such as warehouses, storage areas and technical areas open to the public

HO.RE.CA. Line is the line created to identify UV traps that, in addition to being highly performing, can be suitable for use in Ho.Re.Ca. and front office environments, such as restaurants, hotel lobbies, dining rooms, etc.

WE CREATE YOUR UV TRAP

Ekommerce is able to realize **customized UV traps** production, already from small production lots (50 MOQ).

Customizations can be made on models already in production or customized models can be developed and designed **exclusively for the customer's use and design**, in collaboration with our designers and technical staff.
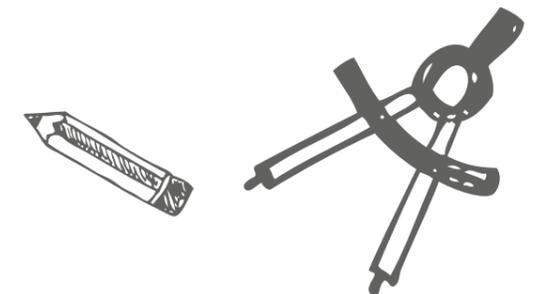

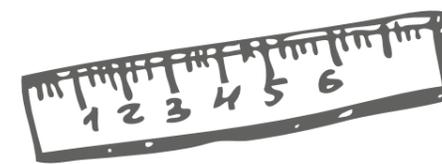

POSITIONING SUGGESTION

✓ Recommend enough units to cover the entire area to be protected
✓ Install units away from sources of light competition, such as windows, doors and lighting equipment
✓ Install at an average height of 2 meters from the ground
✓ In positioning, make sure that there are no visual barriers that hinder the visibility of the entire monitored area
✓ Continuous 24/7 operation is recommended
✓ For monitoring in technical areas, place near potential entry points so as to intercept flying insects before reach the sensitive areas
✓ For monitoring in processing areas, place away from preparation points

KILLED

TABLED

TABLED is a UV LED trap for table, for capturing and monitoring in a discreet way, flying insects such as flies, wasps, food moths, etc., in Ho.Re.Ca. environmental. Can be positioned on a horizontal surface, as a desk or furniture. Its structure is in original natural stone, designed for environments open to the public, with a sophisticated and discreet design, such as hotel lobbies, restaurants, spas, etc.

Code: 8632
Packaging: 1 pc

MILEDSTONE

MILEDSTONE is a UV led wall trap for the capture and monitoring of flying insects, such as flies, etc., in Ho.Re.Ca. environmental and in a discreet way. Designed for environments open to the public, with a sophisticated and discreet design, such as hotel lobbies, restaurants, spas, etc. In natural stone made in Italy. Easy for maintenance.

Code: 8633
Packaging: 1 pc
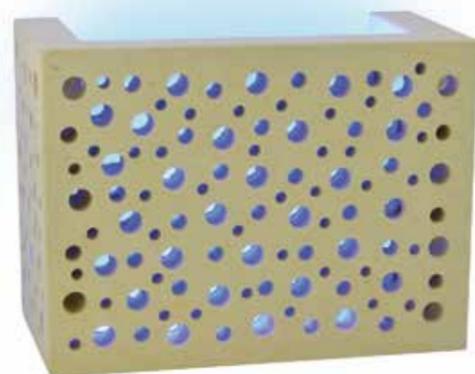

TUFFLED

TUFFLED is a UV LED table trap for capture and monitoring of flying insects, such as flies, etc., in Ho.Re.Ca. environmental and in a discreet way. Can be positioned on a horizontal surface, such as a table or desk. Its structure is in original natural stone, of Italian manufacture, designed for interiors open to the public, with a sophisticated and discreet design, such as hotel lobbies, restaurants, SPA wellness centers, etc.

Code: 8634
Packaging: 1 pc

KILLED

WALLED

WALLED is a range of UV LED glueboard traps for professional use, for monitoring and control of flying insects. Its design blends perfectly with the environment in which it is placed. Ideal for front office environments, Ho.Re.Ca. and domestic. Its structure is in powder coated steel, with different possible colors. Its look is compact, discreet and modern.

Code: 8635
Packaging: 1 pc
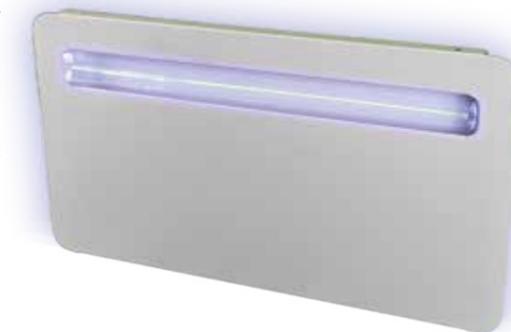

GEMLED

GEMLED is a UV led glueboard trap for monitoring and capturing of flying insects. Its design is ideal for use in environments open to the public, such as front office, Ho.Re.Ca. Its structure is in powder coated steel, with different possible colors. Its look is compact and modern and can be positioned on the wall.

Code: 8636
Packaging: 1 pc
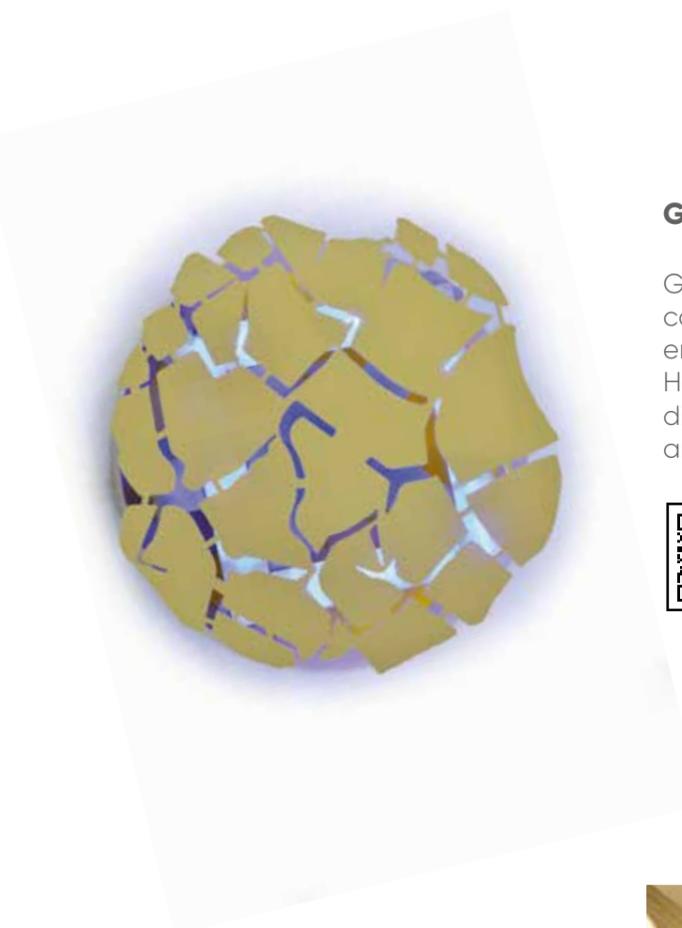

ATEX 36

ATEX 36, is a model of UV trap in stainless steel and polycarbonate designed for environments with a high risk of explosion. Equipped with ATEX protection for gas and dust, zone: 1, 2, 21, 22.

Coverage (m²): 120

Dimension (mm): w 700 x d 120 x h 700

Tubes: 2 x 18 Watt

Packaging: 1 pcs

Optional:
√ Black Glueboard

EASY

EASY range is composed of UV traps for professional use with glueboard for the capture and monitoring of flying insects. The frame is in stainless steel. Designed for use in technical environments, such as processing areas, food storage areas and warehouses. Very versatile, as they can be positioned on the wall, suspended, multi-position and at an angle. The EASY line is a line of compact and very simple UV traps to be maintained during the glueboards and UV tubes changing.

EASY 36S

Coverage (m²): 120
Dimension (mm): w 623 x d 110 x h 292
Tubes: 2 x 18 Watt

Consumables:

7125

Code: 8414 – EASY 72S
             (Steinless steel)
Packaging: 1 pc

RB40

RB40 is the UV trap in stainless steel and white powder coated steel, designed for particularly sensitive environments, such as food processing and packaging areas. A simple and modern design characterizes this UV trap, which allows a wide diffusion of UV light. Can be positioned in different positions: suspended from the ceiling with a special chain or positioned on the wall.

Coverage (m²): 120
Dimension (mm): w 630 x d 134 x h 300
Tubes: 1 x 40 Watt

Consumables:
5154ECG
7123

Code: 8458 – RB 40S (Steinless steel)
             8458W – RB 40W (White)
Packaging: 1 pc

Optional:
√ Shatterproof UV lamp
√ Black Glueboard

SLIM 30S

SLIM the UV trap model is characterized by its "slim" structure, with a depth of only 8 cm.
UV trap in stainless steel with a simple design, which allows a wide diffusion of UV light. Can be positioned on the wall and multi-position. Ideal for use in processing and preparation areas.

Coverage (m²): 80
Dimension (mm): w 470 x d 80 x h 300
Tubes: 2 x 15 Watt

Consumables:
5154ECG
8570

Code: 8145
Packaging: 1 pc

DUPLO 45

DUPLO 45 is a UV trap model characterized by a modern and discreet design, ideal for areas open to the public. Equipped with a solid and slim structure with a depth of only 6,5 cm. It is also characterized by its double glueboard insertion system, possible both laterally and from above. The front door can be easily opened thanks to the locking system with lever, which allows a practical and quick maintenance. The UV lamps are three that increase the attractive power, but it is possible to alternatively decide to turn them on individually. The frame is in steel painted with white powders.

Coverage (m²): 120
Dimension (mm): w 580 x d 65 x h 310
Tubes: 3 x 15 Watt

Consumables:
5154ECG
8570

Code: 8501
Packaging: 1 pc

Optional:
√ Shatterproof UV lamp
√ Black Glueboard

FOOD 30W

FOOD 30 White, is a compact UV glue trap model, ideal for environments open to the public. Very simple and discreet design and very fast maintenance. The door can be opened from the front leaving the maintenance area completely open, favoring the activity of replacing glueboards and UV lamps. Can be placed on the wall, it can also be placed on a horizontal surface, thanks to the special stainless steel support accessory (code 8141). The model is in steel painted with white powders. The stainless steel version (code 8119) is available on request

Coverage (m²): 80
Dimension (mm): w 480 x d 85 x h 390
Tubes: 2 x 15 Watt

Consumables:
8078Y
8570

Code: 3440
Packaging: 1 pc

FOOD 60S

FOOD 60 Stainless Steel is the UV trap for professional use in stainless steel characterized by the presence of a double-sided glueboards, to increase the glue-area and so the capture capacity of the trap. Practice in maintenance, thanks to the double opening downwards of the front and back door, through a simple closing system with lever. Ideal for logistics areas, food storage areas and warehouses. On request the version in steel painted with white powders (code 8620W) is available..

Coverage (m²): 180
Dimension (mm): w 485 x d 95 x h 375
Tubes: 4 x 15 Watt

Consumables:
6178ECG
8570

Code: 8620
Packaging: 1 pc
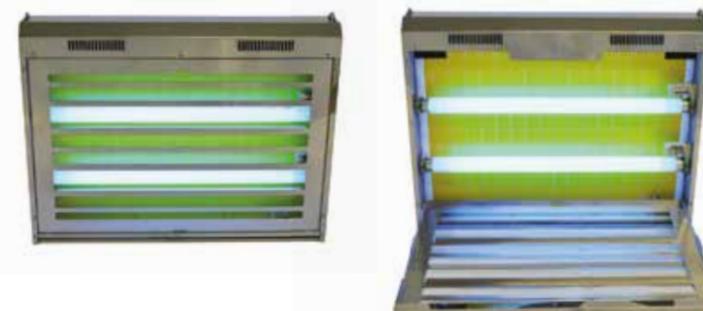

Optional:
√ Shatterproof UV lamp
√ Black or Yellow Glueboard
√ In stainless steel or steel painted with white powders

ONDA 30W

ONDA 30 White is a UV trap in steel painted with white powders. It stands out for its curved structure with a pleasant design, ideal for use in places open to the public. Can be positioned on the wall with different positioning possibilities. The stainless steel version (code 8132) is available on request.

Coverage (m²): 60
Dimension (mm): w 480 x d 145 x h 280
Tubes: 2 x 15 Watt

Consumables:
5153ECG
8570

Code: 8007
Packaging: 1 pc
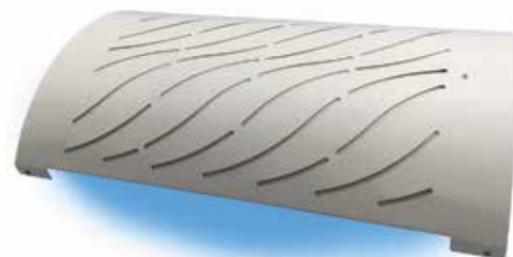

MINI 30S

MINI 30 is a small-sized UV trap in stainless steel, ideal for use in small environments such as small supermarkets, small food storage areas or warehouses.
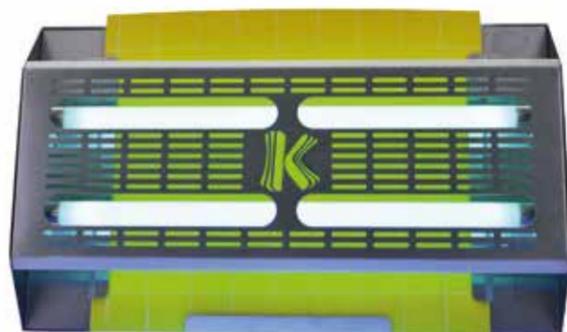

Coverage (m²): 60
Dimension (mm): w 315 x d 75 x h 190
Tubes: 2 x 15 Watt

Consumables:
6193Y
5161

Code: 8335
Packaging: 1 pc

Optional for ONDA:
√ Shatterproof UV lamp
√ Black or Yellow Glueboard
√ In stainless steel or steel painted with white powders

WALL

WALL, a line of UV traps for professional use with glueboard for the capture and monitoring of flying insects, with a design that is perfectly suited to environments open to the public. The frame is in powder-coated steel of different colors. Its look is modern and elegant, which allows it to blend in perfectly in the environments in which it is positioned.

Coverage (m²): 80
Dimension (mm): w 515 x d 70 x h 250
Tubes: 2 x 15 Watt

Consumables:
6064Y
8570

Packaging: 1 pc

X30

X30 is the UV trap with glueboard for capturing and monitoring flying insects in general, such as gnats, flies etc. Made of stainless-steel in its front part and the back-frame part in powder coated steel. Its compact and modern design has been designed to make it perfectly integrated in contexts such as industrial kitchens. Can be positioned on the wall. It is characterized by its front cover, whose central part can be rotated to allow practical and easy maintenance when changing consumables, but it is also removable to increase its attractiveness. The glueboard is inserted from the top.
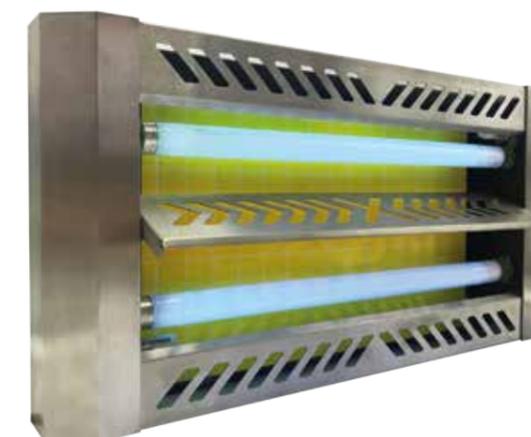

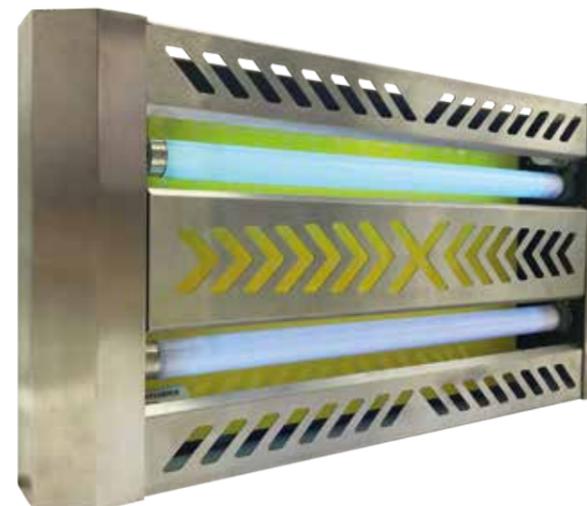

Coverage (m²): 80
Dimension (mm): w 570 x d 70 x h 290
Tubes: 2 x 15 Watt

PEST MONITORING SYSTEM

TAK
GLUEBOARDS

GLUE TWIN

Glue twin is a hazelnut flavored glue trap for monitoring and capturing crawling insects and *Mus musculus domesticus* for indoors. The trap can be used open on its own or can be used inside a multi-catch traps and bait stations (such as Top Rat Duo, Hard Rat Inox and Evo). It can also be closed by a tunnel (also called a "little house") and positioned in the places to be monitored. Disposable trap.

Dimension (mm): w 240 x h 100

Code: 3135
Packaging: 100 pcs

GLUE TWIN PP

Glue twin is a hazelnut flavored plastic glue trap for monitoring and capturing crawling insects and Mus musculus domesticus for indoors and outdoors. The trap can be used open on its own or can be used inside a multi-catch traps and bait stations (such as Top Rat Duo, Hard Rat Inox and Evo). In polypropylene plastic with flavored glue, is perfect for use in environments with high humidity or outdoors inside multi-catch and other pest control devices. Disposable trap.

Dimension (mm): w 250 x h 100

Code: 3136
Packaging: 80 pcs

PROGLUE

Proglue is a range of aromatic glue trap for monitoring and capturing of indoors pests. Can be used alone or inside bait stations. Disposable trap.

PROGLUE
Proglue is specific for monitoring and capturing crawling pests indoors.
Dimension (mm): w 155 x h 100

Code: 6004S
Packaging: 100 pcs

PROGLUE HG
Proglue HG is specific for monitoring and capturing crawling pests and *Mus musculus domesticus* indoors.
Dimension (mm): w 155 x h 100

Code: 6004HG
Packaging: 100 pcs

Optional:
√ Our TAK gluetraps line can be customized with private labels on request!

BLATRAP

Blatrap is a glue trap with a specific food aroma for indoors capturing and monitoring of cockroaches, crawling insects and various food pest infestations. Target pest are: cockroaches, crawling insects in general (eg silver fish), beetles (eg. carabites, tenebrionids) and food pest infestants (eg *Lasioderma serricorne, Tenebrio molitor*, etc.).

The trap configuration allows positioning horizontally and vertically, in small spaces under and behind the furniture. The openings allow easy and quick access for pests and protect the glue surface from dust. Possibility to configure the trap with 2 different heights.

The glue surface is with food flavoring already integrated in the glue, easy to assemble and use. To increase the priming capacity, it is possible to integrate with an attractive pad (code 3419 on request). Can be used alone or inside safety dispensers by simply removing large wings and bending small wings inside. Disposable trap. Indoor use.

Dimension (mm): w 180 x d 100 x h 28 (high) | w 180 x d 100 x h 20 (low)

Code: 3212
Packaging: 200 pcs

BLATRAP MINI

Blatrap Mini is a glue trap with a specific food aroma for indoors capturing and monitoring, cockroaches, crawling insects and various food pest infestations. The trap configuration allows positioning horizontally and vertically, in small spaces under and behind the furniture. The openings allow easy and quick access for pests and protect the glue surface from dust.

The glue surface with food flavoring already integrated in the glue, easy to assemble and use. To increase the priming capacity, it is possible to integrate with an attractive pad (code 3419 on request). Can be used alone or inside safety dispensers. Each sheet consists of 5 traps. Disposable trap.

Dimension (mm): w 65 x d 60 x h 4

Code: 3213
Packaging: sheet 5 x 1 – 200 pcs
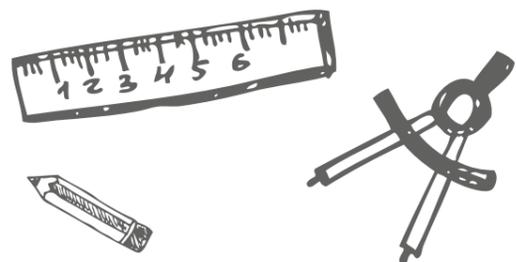

Optional:
√ Our TAK gluetraps line can be customized with private labels on request!

ZEBRATRAP

Zebratrap is a glue trap for anobids and food moths. It is characterized by its cardboard with external graphics with slanted white and black stripes which increases its attractive power. The internal glue surface is white. Used for monitoring food processing and storage areas. It can be positioned on a horizontal or suspended surface. Activation with specific pheromone (not supplied) – see pheromone table. *Plodia interpunctella / Ephestia spp.* (cod. 3129 – 3129LL), *Sitotroga cerealella* (cod. 3133), *Tinea granella* (cod. 4298), *Lasioderma serricorne* (cod. 3132), *Stegobium paniceum* (cod. 4297). Disposable trap.

Dimension (mm): w 133 x d 90 x h 122 (ready to use)

Code: 8550
Packaging: 120 pcs

VASTRAP

Vastrap is the trap in a tray with flavored glue, designed for wet environments or for environments with presence of water. It can be used alone, it can be protected with the special Tunnel (code 4383) or even used inside dispenser as Top Rat Duo (codes 8038, 8060, 8097, 8387). In thermoformed plastic material with 40 grams of flavored glue per tray. Used for capture and monitoring of rodents infesting Rats (*Rattus rattus, Rattus norvegicus*), mice (*Mus musculus domesticus*) and crawling insects.

Dimension (mm): w 250 x d 120 (Vastrap)

Code: 4382
Packaging: 100 pcs

TUNNEL for VASTRAP

Tunnel for Vastrap is a tunner to protect the Vastrap gluetrap designed for wet environments or for environments cants with presence of water. In thermoformed plastic material, black colour.

Dimension (mm): w 250 x d 120 x h 80

Code: 4383
Packaging: 100 pcs

WOOD

Wood is the line of glue traps for monitoring and capturing rodent pests such as *Rattus rattus, Rattus norvegicus, and Mus musculus domesticus.* It is a rigid trap, with glue resistant to high temperatures in hardboard material. Two different versions are available, specific for mice and specific for rats.

RAT WOOD

Specific version for *Rattus norvegicus* e *Rattus rattus*.
Dimension (mm): w 280 x d 190

Code: 3207
Packaging: 48 pcs

MOUSE WOOD

Specific version for *Mus musculus domesticus*.
Dimension (mm): w 140 x d 190

Code: 6031
Packaging: 96 pcs

PHEROK

Pherok is a wide range of different pheromone dispensers, all of each hold and release the active ingredient into the atmosphere in a controlled way. Different option of dispensers are available and have different properties and are suitable for specific pests.

EVO CONTROL STATION

EVO Control Station is a versatile and functional device for the control of rodents and crawling insects. In black polypropylene plastic. In full compliance with the Integrated Pest Management philosophy, EVO has been designed to manage both pest rodents and the most common infesting crawling insects, such as cockroaches and ants, with a single device with different and complementary methods. Equipped with practical side opening of the lid with a single locking system, which reduce the station's opening times. The reinforced closure compared to other similar models increases safety in use in sensitive environments. Furthermore, the presence of an interlocking cap for closing and hiding the lock reduces the possibility of opening the EVO Control Station by non-experts. Multiple features:

- rodenticide bait dispenser and virtual baits of any physical form
- gel bait dispenser for cockroach and ants' control
- trap for rats or mice with large or small Snap Trap
- mousetrap with one or two Vastrap glue traps
- mousetrap with Glue Twin glue trap closed to house
- trap for crawling insects with 2 Mini Blatrap joined and closed to house
- rodent presence control with Ekontrol system positioned inside

Evo is supplied with: internal tray, metal bait-holder pin, support for wall fixing, key for opening and cap for covering the lock.

Dimension (mm): w 235 x d 185 x h 110 (with cap)
w 235 x d 185 x h 105 (without cap)

Code: 7500 - black color
               7501 – with transparent lid
Packaging: 20 pcs

TOP RAT DUO

Top Rat Duo is a plastic control station (reinforced polypropylene) for the control of rodent pests, such as *Rattus rattus, Rattus norvegicus, Mus musculus domesticus*. It can be used as a dispenser for rodenticide baits or as a safety dispenser for glue traps such as Glue Twin (code 3135) and Vastrap (code 4382). Usable in indoor and outdoor areas in civil, domestic, industrial and zootechnical areas. It is equipped with a practical internal removable tray complete with bait pins and key lock. Can be positioned on the wall with an exclusive system or on a pole with a plastic clamp.

Available with customized color on request (MOQ 1248 pcs). It is also customizable with logo printing (MOQ 504 pcs).

Dimension (mm): w 305 x d 157 x h 105 | Ø entry hole 5 cm
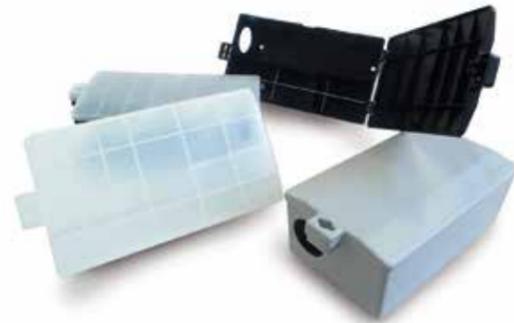

Code: 8038 - black
               8060 - black with transparent lid
               8097 - grey
               8387 - total transparent
Packaging: 12 pcs

Optional TOP RAT DUO:
√ Can be customized with color and company logo on request!

T-RAT

T-RAT is the inverted T-shaped safety dispenser for the control of rodent pests, such as *Rattus rattus, Rattus norvegicus, Mus musculus domesticus*. It is a rodenticide bait dispenser in reinforced polypropylene plastic with high strength and resistance, equipped with a double lock with Torx anti-screw, designed to be used in indoor and outdoor areas in civil, domestic, industrial and zootechnical environments. It can be positioned on the wall with the supplied plug, or on a pole with a plastic clamp. It is supplied complete with a steel bait-bearing pin hooked to the cover, 120 x 5 mm screws with anchors for fixing to the wall. It can be made in custom color (MOQ 1000 pcs).

Dimension (mm): w 335 x d 75 x h 280 | Ø entry hole 7 cm

Code: 3005 – black
               8130 - grey
Packaging: 25 pcs

HARD RAT

HARD RAT is a stainless-steel safety dispenser for the control of rodent pests: R*attus rattus, Rattus norvegicus, Mus musculus domesticus*. Particularly suitable for external and internal areas at risk of tampering. It can be positioned on the wall or on the floor with supplied plugs, on a pole with a jumper or clamp. Its shape is polygonal, very robust, equipped with a locking system with a hexagonal screw, a vertical bait-holder pin incorporated in the practical pull-out tray, usable with both Vastrap (code 7090) and Glue Twin closed to house (code 3135).

Dimension (mm): w 300 x d 85 x h 80 | Ø entry hole 5 cm

Code: 7081
Packaging: 16 pcs

EKOXY3

Ekoxy3 is the range of ozone generators for ecological disinfection. Thanks to the patented filter system that purifies the intake air, ozone emission is optimized and no other potentially dangerous elements are generated. Ekoxy3 is indicated for the treatment of air and surfaces for the elimination of viruses and bacteria in any type of environment (civil, industrial, food, public, health). Can be used for: air disinfection; disinfection of surfaces intended for contact with food; water disinfection of aqueducts, swimming pools and for bottling; disinfection of fruit and vegetables from mold and yeast spores; deodorizing of environments. Ekoxy3 sucks in air, purifies it through the special patented filter, then generates ozone and injects it into the environment. Ozone, thanks to its oxidizing capacity, disinfects the environment and, as unstable by nature, spontaneously converts back to oxygen without leaving toxic-harmful residues.

EKOXY3-25

Technical data: Ozone production 1 g/h ambient air 20°/50% Rh; Air/ozone flow 36 m³/h; Ozone concentration 25 PPM; quantity of recharge filter 410 g.
Dimension (mm): w 320 x d 330 x h 120

Code: 8553
Packaging: 1 pc

EKOXY3-50

Technical data: Ozone production 3,2 g/h ambient air 20°/50% Rh; air/ozone flow 90 m³/h; Ozone concentration 50 PPM; amount of recharge filter 800 g; water ozonation kit supplied.
Dimension (mm): w 400 x d 380 x h 180

Code: 8554
Packaging: 1 pc

EQUIPMENTS

4 Green
ECO-FRIENDLY EQUIPMENTS

COLD ZONE

Cold Zone is the range of equipment for crio-disinfestation. It is a professional system designed for ecological treatments in indoor environments (eg. hotels, hospitals, schools, transport vehicles, homes, etc.) against crawling pest insects and in particular against bloodsucking insects (eg the bedbug). Its structure is in stainless-steel with different storage capacity of the tank (30 L and 50 L). Killing action, adulticide, ovicidal and non-residual, acts by thermal shock from contact. It is ideal for insects nestled in tissues, electrical outlets and cracks that are difficult to reach. Many other accessories available upon request.

COLD ZONE 30

Tank capacity: 30 L
Dimension (mm): Ø 35 x h 92Ø 45 x h 87

Code: 8233KIT
Packaging: 1 kit*

COLD ZONE 50

Tank capacity: 50 L
Dimension (mm): Ø 45 x h 87

Code: 8232KIT
Packaging: 1 kit*

*supplied: Coil kit 2 m; launches (code 8235); direct jet nozzle (2 L/min - code 8239); coil and filler connection (code 8350).

COMPACT AEROSOL

Compact Aerosol is the ULV (Ultra Low Volume) portable nebulizer for large environments. It is a compact, lightweight device made entirely of stainless-steel. It can be placed anywhere thanks to the two wheels provided and, despite its small size, it boasts a tank with over 20 L capacity. For operation only access to a compressed air network or connection to a 250 L/min compressor is required. High versatility, allows use in multiple environments, with coverage up to 30,000 m³, also thanks to the two nozzles oriented at 45°. Easy to maintain thanks to the absence of worn gaskets. Equipped with 2 wheels and carrying handle, 2 ULV nozzles, 1 water supply faucet, 1 faucet for washing, 2 pressure reducers, 1 air pressure gauge, 1 liquid pressure gauge, quick coupling for Rilsan hose 0,8 mm. It is able to work at a pressure between 1 and 5 bar.
Dimension (mm): w 330 x h 800

Code: 8512
Packaging: 1 pc

EKOFOG

Ekofog is a electric thermal fogger, ideal for disinfestation, disinfection and deodorization of industries, warehouses, food storage, stables, farms, silos, sewers, air conditioning ducts, etc. The particles produced by the thermo-humidifier have a diameter of very few microns and form a uniform dispersion in the environment even of vast cubature, determining a very effective and economic action compared to other systems, with a limited amount of product used. It is equipped with an electronic temperature system that guarantees constant stability, and is equipped with a control panel to regulate the emission of fog. Convenient to move thanks to its compactness, the practical handle and the weight of only 13 kg. On request it can be equipped with 4 wheels that make it even easier to move and use.

Maximum boiler power: 1.500 Watt
Maximum turbine power: 1.600 Watt
Electric voltage: 230 Volt
Frequency: 50 Hz
Protection: IP44
Preheating time: circa 7 min
Max fluid consumption: 100 ml/min
Average fluid consumption: 30 ml/min
Operating conditions: 5°C ÷ 45°C (with less than 80% relative humidity)
Dimension (mm): w 270 x d 250 x h 475

Code: 7150
Packaging: 1 pc

BIRD MANAGEMENT SYSTEM

![BMS logo]
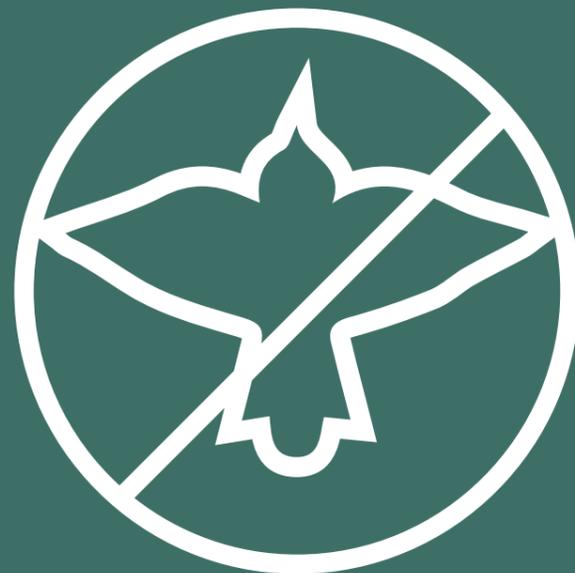

BIRD MANAGEMENT SENSORY

SCUDO BIRDS

Scudo Birds is a ecological, gel for birds control, made up of a mix of natural substances extracted from plants, fats and capsaicin. Ideal for removing pest birds, such as pigeons, starlings, crows, seagulls and small and medium-sized birds. To be applied on internal and external surfaces of adjacent buildings and structures (eg. cornices, roofs, window sills, statues, monuments, etc.), at a distance of about 10-25 cm, a quantity of 20 g of product from pour onto the special trays supplied. The quantity of a cartridge covers about 3,5 m/linear.

Code: 8451WKIT – AVORY color
               8451SKIT – SILVER color
Packaging: 12 x cartridge 280 g
               12 x pack 15 trays

SCUDO CALL CITY

Scudo Call City is a sound-digital bollard created for the removal of pest birds in a bloodless and ecological way. It is based on the issue of "alarm cries" of problematic bird species, recorded by ornithologists on high quality digital tracks of absolute sound purity. The cries of alarm are the same that the species of birds to be removed emit in nature when they are afraid. Works with mains power or with a 12 Volts battery. It has an adjustable twilight sensor that allows it to operate automatically during daylight hours, deactivating it after sunset. The operating and pause times are already set following ornithological evidence, however it is possible to modify them by following the instructions. Sound power allows it to be perceived by birds even from a great distance. Supplied with: n. 1 sound player, n. 1 cable with power supply, n. 1 power cable with battery terminals and n. 1 protective plastic cover.

Technical data:
30 Watt internal speaker
3,5 mm mono jack socket for external speaker (up to 30 watts)
Active speaker selection (INTERNAL | INTERNAL + EXTERNAL | EXTERNAL)
Memory capacity 8 songs
Personalization of operating time and pause time (from 30 seconds to 30 minutes)
Random function with random times
LDR light sensor
Light sensor sensitivity adjustment
Daily or continuous operation
Display brightness adjustment
External power supply 12 Volts
Power supply DC 5,5 x 2,1 mm
Weight 265 g
Dimension (mm): w 700 x d 700 x h 450

Code: 8561C
Packaging: 1 pc

GENERAL CONDITIONS OF SALE

By submitting an order for the purchase of Products (a "Purchase Order"), Buyer acknowledges and agrees to the following terms and conditions (the "Agreement"):

1. SELLER'S TERMS AND CONDITIONS – The following terms and conditions are deemed part of all quotations, acknowledgments, invoices, Purchase Orders and other documents, whether electronic or in writing, relating to the sale of goods or services ("Products") by EKOMMERCE SRL, a Italian company ("Seller") to Seller's customers ("Buyer"). These terms and conditions, together with Seller's quotation, order acknowledgement and invoice to a Purchase Order accepted by Seller, constitute the entire contract of sale and purchase between Seller and Buyer with respect to the Products covered by this Agreement, will supersede all previous communications, agreements or contracts, written or verbal between Seller and Buyer, and no understanding, agreement, term, condition or trade custom at variance herewith will be binding on Seller. In the event of a conflict between or among the terms of documents relating to the Products, the following order of priority will govern, except where the specific terms of a document provide otherwise: (a) any applicable order acknowledgment and invoice; (b) this Agreement; (c) the applicable quotation; and (d) the applicable Purchase Order. No waiver, amendment or modification of the terms and conditions hereof will be effective unless in writing and signed by an officer of Seller. SELLER OBJECTS TO, AND IS NOT BOUND BY, ANY TERMS OR CONDITIONS ON BUYER'S PURCHASE ORDER, CONFIRMATION FORMS OR OTHER DOCUMENTS, WHICH ATTEMPT TO IMPOSE UPON SELLER ANY TERMS AND CONDITIONS AT VARIANCE WITH SELLER'S TERMS AND CONDITIONS OF SALE SET FORTH HEREIN, AND SHIPMENT OR OTHER PERFORMANCE BY SELLER SHALL NOT CONSTITUTE ASSENT TO ANY SUCH INCONSISTENT TERMS.

2. QUOTATIONS – All quotations by Seller are subject to change or withdrawal without prior notice to Buyer unless otherwise specifically stated in the quotation. Quotations are made subject to approval by Seller of Buyer's credit. Seller shall have no obligation to sell or deliver Products covered by Seller's quotation unless and until Seller issues an order acknowledgement form or upon the shipment of Products by Seller.

3. TERMS OF PAYMENT – Unless otherwise expressly agreed to by Seller in writing, terms of payment are cash to be paid in advance before delivery from Seller's warehouse.

4. MINIMUM BILLING CHARGE – Seller shall not accept any Purchase Order for any Products or Services where the aggregate price for all Products listed thereon is less than 250,00€ exclusive of all taxes, shipping, insurance and other costs.

5. SHIPPING TERMS – Unless otherwise agreed in writing by the parties, deliveries of Products shall be made EXW Seller's facility in Atessa (CH), Italy. Buyer will be responsible for and shall assume all risk and liability for, and agrees to indemnify Seller for, all loss, damage or destruction of the Products, as well as the results of any use or misuse by third parties who may acquire or use the Products, after Seller's delivery of the same to the carrier. Any loss occasioned by damage or shrinkage in transit will be for Buyer's account, and Buyer shall file any damage or loss claims directly with the carrier. Unless otherwise agreed in writing by the parties, packaging methods, shipping documents and manner, route and carrier of shipment shall be at Seller's sole discretion. Seller reserves the right to ship items in a single or multiple shipments. Unless otherwise agreed in writing by the parties, all freight charges and insurance costs shall be the responsibility of Buyer and will be invoiced as a separate line item to be paid by Buyer.

6. INSPECTION AND ACCEPTANCE OF GOODS – Buyer shall examine Products promptly upon receipt of delivery from the carrier. Buyer shall advise the carrier of any damages or shortages prior to acceptance of Products and, except for any latent defects, shall advise Seller of any claims with respect to shortages, damages or discrepancies within ten (10) days after receipt thereof. If Buyer does not so notify the carrier and Seller of any nonconforming or damaged Products during this period, the Products shall be deemed accepted and it is expressly agreed that Buyer shall have waived all claims based on any defects that were or would have been discovered on reasonable inspection during this period. Buyer shall afford Seller a reasonable opportunity to inspect such nonconforming or damaged Products and to cure any nonconformity. BUYER'S FULL OR PARTIAL PAYMENT OR ACCEPTANCE OF DELIVERY OF PRODUCTS WITHOUT NOTIFYING THE CARRIER AND SELLER OF ANY DAMAGES OR SHORTAGES IN ACCORDANCE WITH THIS SECTION SHALL CONSTITUTE ACCEPTANCE OF SUCH PRODUCTS.

7. DELIVERY – Seller's delivery or shipping dates are approximate only and merely represent Seller's best estimate of time required to make delivery or shipment. Shipment dates are contingent on prompt receipt by Seller of all necessary shipping information. Seller shall not be held responsible for failure to meet estimated shipping dates, and in no event shall Seller be liable for any loss, cost, damage or expense whatsoever incurred by Buyer or its customers that may result therefrom.

8. RETURN POLICY – No merchandise shall be returned without a written authorization from a Ekommerce official.

9. TECHNICAL DATA; PRODUCT USE – All technical information and instruction of use are free to download on our website www.ekommerce.it or to be required directly to the Seller.

10. GOVERNING LAW – The laws of the State of Italy shall govern the validity, interpretation and enforcement of this agreement, without regard to its conflicts of law principles.

11. THE PICTURES ARE PURELY INDICATIVE. Being constantly committed to product improvement, the features and images of the items in the catalog may be changed at any time without notice.
